

What's Up With the Cup?

The power of Expedite™ is now available in a gelatin cup for patients with wounds.

It's all
about
patient
choice!

Eat It!

or

Drink It!

- Sugar free
- Appropriate for dysphagia diets
- Easy to serve on meal trays
- 2-ounce gelatin cup serving size
- Once daily dosing
- Tropical Fruit flavor

- 1 carbohydrate exchange
- Ready-to-drink individual bottle
- Easy to serve between meals
- Small 2-fluid-ounce serving size
- Once daily dosing
- Peach Mango flavor

2-ounce serving sizes ▶ Better consumption ▶ Fuels collagen production

 More than nutrition,
Medtrition®

Expedite™ contains a highly concentrated blend of the collagen dipeptides prolyl-hydroxyproline (PO) and hydroxyprolyl glycine (OG) to fuel collagen production.

- STEP 1: CONSUMPTION**—The 2-fluid-ounce portion is manageable for both patients and caregivers in a choice of liquid or gelatin.
- STEP 2: ABSORPTION**—Expedite is readily absorbed in the gut to reach the wound site. PO and OG can circulate in the bloodstream for more than 4 hours post-ingestion.
- STEP 3: DISTRIBUTION**—Expedite reaches the wound site with 30 times the PO and OG content when compared to standard collagen supplements.
- STEP 4: PROLIFERATION**—PO and OG accumulate in the skin where they stimulate fibroblasts to produce dermal extracellular matrix components. Expedite directly affects the proliferative stage of wound healing by stimulating receptors in fibroblasts to produce new collagen.

PLUS L-citrulline to stimulate nitric oxide production.

L-citrulline is the more efficient and more powerful way to stimulate nitric oxide production when compared to supplemental arginine.

Ingredients: Water, Hydrolyzed Collagen Peptides, L-Citrulline, Malic Acid, Carrageenan and Locust Bean Gum, Natural Flavors, Potassium Citrate, L-Tryptophan, Sucralose, Potassium Sorbate and Sodium Benzoate (preservatives), Yellow 5 and 6.
